Loke mi a mira Geraldo Rivera haci cu nos ministronan

- Geraldo Rivera -

ORANJESTAD (AAN): Un lector di DIARIO Online,

residencia na Merca, esta Richard Dijkhoff di Virginia, a comenta lo siguiente riba loke e ta mirando na TV Mericano encuanto e caso di Natalee Holloway desapareci riba e isla.

El a comenta riba Fox News Channel, cu ta un canal noticioso conservativo (compara cu CNN cu ta liberal). Lamentablemente na Aruba, e sistema di Cable-TV no tin Fox News Channel, aunke e ta worde considera un canal mucho mas agresivo y cu mas variacion di noticia.

Ata aki loke e lector a declara:

"I am disappointed in the Prime Minister and the Minister of Justice and the interview with Geraldo Rivera of Fox News Channel. Yes, we all know about Geraldo's reputation but they completely played right into his hands. Specifically, the fact that they spoke about the blood found in the suspect's car without notifying the parents first."

"First, this is not the way the parents of a missing child should be hearing about such things. This was live TV and just plain irresponsible, especially from someone with such high authority. But most importantly, I thought that was the whole purpose of the single spokesperson."

"Clearly these men were unprepared to answer questions and I fear that this has fueled the perception that the Aruban police, etc., are incompetent and not appropriately handling this case. Had he spoken with the official spokesperson, I don't think this would have happened."

"Please understand, I, in fact, do think they are doing everything they can and are handling this appropriately, but find myself having to defend the actions of the officials who are bending to the pressure of the media to do impromptu interview and constant badgering for information. Make no mistake,

this is affecting even those Arubans who are no longer living there but still consider Aruba their home, as well as countless repeat "tourists" who have considered Aruba their home away from home."

"Thankfully, it appears that the fact that Aruba really is a safe place and this is unusual for the island, is finally being heard and widely reported. Now it just comes down to the U.S. media scrambling to find their "so called experts" and profilers to comment on the investigation. Unfortunately, most of these "experts" didn't even know where Aruba was until now and clearly have no idea of the terrain, size, geography, etc."

"One woman profiler even went so far as to compare the 3 boys to Scott Peterson! It was when it was reported they were searching around the Natural Bridge and she

was commenting on how they had stated they had taken Natalee to the lighthouse in order to have an alibi should they find her body near the Natural Bridge (!!) just as Scott Peterson had told police he had been fishing near where Lacy was found so he would have an alibi should anyone have seen him. Unbeknownst to her, the Lighthouse and the Natural Bridge are not even close to each other! Unfortunately, my shouting at the TV cannot be heard beyond my living room!"

"I have tried for an hour to get through to Larry King Live, have e-mailed Nancy Grace, The Abrams Report, MSNBC, the Pat O'Reilly Effect but to no avail... but I'm trying!"

Cu respet el a finaliza bisando: "Thanks for allowing me to express my frustrations."
